Excavator Buckets and Attachments

R&M Buckets provide a large selection of Digging Buckets, Ditching and Grading Buckets, Rockhammers, Grabs, Easi Klamps and Riddle Buckets. All products can be customised to the customer's needs and we cater for all the main excavating machines.

Digging Buckets

There are a wide range of Digging Buckets available from 0.5 Tonne Mini Digging Buckets to 80 Tonne Heavy Duty Buckets.

R&M Buckets manufacturer a large secelection of Mini Buckets and attachments. These include, Digging, Ditching, Grading Buckets, Grabs, Ripper Hooks and Quick Hitches.

R&M Buckets manufacturer Quick Hitches, Rockhammer Tops and Ripper Hooks for all types and sizes of machines.

Agri Loader

Silage Forks come in all different types and sizes. One of the biggest sellers is the Fold Up Fork. The Fold Up Silage Fork is always a big hit with customers, it comes in sizes up to 16ft wide with round or Hardox square tines.

R&M Buckets specialise in front loader attachments. All products are manufactured in Slane, Co. Meath, so you can be guaranteed a professional service and an Irish product. Products include Silage Forks, Couplers and Shear Grabs.

Drainage Solutions

In addition to construction attachments, R&M Buckets have become specialists in Drainage Solutions with the single legged mole plough becoming one of our biggest sellers over the last 10 years. If you are looking to give your land the drainage treatment it needs, R&M Buckets have what you need. There are single and multi legged mole ploughs, gravel tunnel ploughs, stone carts and tile drain buckets. R&M Buckets can help you in improving your drainage system and have the team and necessary connections to deliver efficiently.

Tunnel Ploughs

Tunnel ploughs provide a cost effective method of draining wet and marshy land. today.
